 **OPTIMAS**

Optimas are a major distributor of industrial supplies (MRO) and PPE to all sectors of industry.

A leading global supplier of fasteners, components, and inventory systems, Optimas' range of MRO and PPE complements the existing manufacturing product lines enabling customers to consolidate and reduce their vendor base.

Partnering with some of the world's leading brands of MRO and PPE, customers can access over 70,000 unique SKUs including safety equipment, abrasives, adhesives, hand and cutting tools, batteries, and many other commonly used consumables.

In addition, Optimas can supply these products with onsite vending, allowing your staff rapid, 24/7 access to essential work equipment and tools.

Contact us and find out how Optimas can help you standardise and rationalise products, improve efficiency company-wide and realise significant cost-savings.

Contact us with your requirements.

PPE

PPE (Safety Equipment)

From head to toe - when it comes to PPE, we've got you covered.

- Footwear
- Hand Protection
- Head Protection
- High Vis
- Workwear

Contact us with your requirements.

The importance of high-quality, correct fitting PPE

0.7 million workers sustained a non-fatal injury in the workplace (UK HSE estimate in 2019)

84% of employees who sustain head injuries are not wearing PPE

60% reduction in hand injuries when using appropriate safety gloves

Optimas have partnered with the world's leading PPE brands to bring you not only an unrivalled range of high-quality safety equipment and workwear, but simple and effective fitting and testing services tailored specifically for your team and organisation.

Absolute confidence can be further ensured through optional, comprehensive **onsite** services including:

- **Glove audits**
- **Mask and respirator face fitting**
- **Sight tests**

So, whether you're looking for FFP3 face masks, F-rated safety glasses or high visibility clothing, speak to our team to see how we can exceed your PPE requirements.
