

Environmental Policy Statement - UK

Optimas provides a complete Supply Chain service for Fastener, C-Class Components and products and is dedicated to achieving customer satisfaction through efficiency in all areas.

Respect for the environment, compliance with legislation and striving for the highest standards in all our operations is an integral part of the organisations business and profit strategy.

- a. It is therefore Optimas OE Solutions Ltd policy to manage its activities in such a way that reduces their environmental impact to a practical minimum and prevent pollution.
- b. The company is committed to continual improvement of its environmental performance and intends to achieve this by setting clear environmental objectives and regularly environmental performance against them.
- c. To regulate the environmental performance of Optimas OE Solutions Ltd will operate a management system in line with the requirements of ISO 14001 at its UK operations site.

OPTIMAS OE SOLUTIONS LTD

- Ensure that this policy is understood, implemented, and maintained at all levels in the company.
- Ensure that all its employees are aware of the potential effects of their activities and the environmental benefits of improved performance.
- Engage with stakeholders, including communicating internally and externally our environmental policy and performance on a regular basis.
- Work together with our people, service partners, suppliers, landlords and other interested partners to promote and improve environmental performance.
- Conserve and protect the environment by operating in a socially responsible manner.
- Comply with all existing regulatory legislation, consents and codes issued at European, national, and local levels, and adopt a pro active stance in anticipating future, more stringent, regulatory requirements.
- Operate and maintain all plant and equipment to the highest practicable standards according to the principle of BAT (best available techniques) and improve working practices as and when new technology becomes available.
- Monitor key objectives and targets for managing our environmental performance at least annually.
- Minimise waste throughout the company through better utilisation of raw materials, energy and water, increase use of re-useable or recycled materials and development of a strategy for minimising waste at source.
- Implement and maintain a Carbon Neutrality program to support our environmental policy.
 - Utilising renewable energy sources where available
 - Measuring, mapping and management of GHG emissions
 - Creating goals, objectives and targets achieve a roadmap for carbon zero.
